

Vehicle Search

Directions:

For this project, you will search for and find vehicles which fit your needs and budget.

1. Transfer your vehicle wish list from the *My Transportation Needs Activity* to each of the following pages.
2. Write your car-buying budget from the *My Budget Activity* on each of the following pages where indicated.
3. Using your wish list and budget to guide you, search the Internet and/or other sources for vehicles fitting your needs and budget. You should find at least three vehicles for sale in your area. For each vehicle:
 - Provide the basic details about the vehicle
 - Staple or tape a photo of the vehicle on the back of the page
 - Highlight the needs it meets on your list
 - Check the provided box to indicate if it is within your budget
4. Once you have found and described three vehicles, write a two-page essay discussing the pros and cons of each vehicle. Indicate which vehicle you would ultimately choose to buy and why.

Vehicle Search

Must-Have Features	Preferred Features	Features to Avoid

My Budget:

☐ This vehicle fits my budget.

Vehicle 1

Make, model and year:

Mileage:

Price:

Other important selling points:

Seller:

Source of information:
