

Business Registration Process

Directions:

For this *Project*, you will create a map of the steps in registering a new business in your state.

1. Using the Internet, library or any other available resource, research the steps required to register a new business.
2. Once all research has been completed, create a step-by-step map of the process. Maps can be hand-drawn or computer generated.
3. Remember to include contact information and fees for completing the process.
4. Attach a citation sheet listing all sources used.
5. Share your findings with the class.
