

House or Apartment?

Directions:

Compare and contrast owning a home and renting a property in a two-page paper. You should discuss all of the following topics:

- differences between owning a home and renting a property, whether an apartment or a rental house
- financial advantages of owning over renting, as well as any financial disadvantages
- other factors to consider, such as noise susceptibility, neighbors, etc.

Conclude with a explanation of whether owning or renting would fit your situation better.
