

# Choosing a Career

## Directions:

1. Using the Internet, library or any other available resources, choose a career path or field of study which interests you. Your choice may or may not be included in the career options found on the *Career Paths & Fields of Study Student Handout*.
2. Conduct additional research and locate the following information:
  - Post-secondary education option where you can obtain the proper education for the chosen career
  - School you prefer which offers a degree plan/field of study for your career
  - Educational requirements
  - Level of education you need for your career
  - Average salaries and potential pay for the chosen career
3. Using your findings, complete the information on the next page.
