

Post-Secondary Budget Plan

Directions:

1. Using the Internet, library or any other available resources, select a post-secondary education option you would like to pursue after your high school graduation.
2. Identify the average tuition and fees associated with the education option.
3. Figure the average room and board cost for your selected education option. Be sure to specify and research what type of living situation you will have. For example, dorms, apartments, rent houses, or living from home.
4. Figure the average books and supplies cost for your selected education option.
5. Figure the average transportation cost for your selected education option. Be sure to specify and research what type of transportation methods you will use. For example, bikes, buses, vehicles, etc.
6. Figure your average personal expenses will be for your selected education option. For example, cell phone bills, laundry, food, hobbies, etc.
7. Based on your research, fill out the blanks on the next page to show your plan.
