

# Opening an Account

**Directions:**

1. Your instructor will divide the class into groups of two.
2. Using the Internet, find a local retail or commercial bank in your area. Each group should select a different bank. Notify your instructor of your choice so no two groups select the same bank.
3. Access the bank's website and examine the requirements for opening a basic checking account.
4. Create a visual presentation (poster board, Microsoft® PowerPoint® presentation, etc.) detailing the steps.
5. After detailing the steps, add information on account management.
6. Share your presentation with the class and be prepared to answer questions.
