

Products & Services Webpage

Directions:

1. Your instructor will divide the class into groups of three or four.
2. Develop ideas for a new financial institution which includes name, location and what products and services the financial institution will offer.
3. Create a list of objectives for the institution's website.
4. On a blank sheet of paper, sketch out an example of the company homepage, which includes at least the following information:
 - Name of company
 - Location of company
 - Products and services available
 - financial institution must have the following services, along with descriptions of each:
 - checking account
 - savings account
 - loan services
 - trust services
4. Share your sketch and objectives with your instructor and gain approval to move to the next step.
5. Using the program or application of your choosing, develop a web page.
