

Protections from Identity Theft

Directions:

1. In a group of two or three, discuss the common methods of identity theft, such as stealing wallets to obtain identification, digging through mail in search of credit card statements, etc.
2. Each group must write down at least five common ways of identity theft.
3. Next to each type of identity theft, write down strategies of how to prevent this happening to you.
4. Share your prevention strategies with the class.
