Number problems (2)

Read the problem. Record the calculation and answer. Then show how you would work out the answer on a spreadsheet by entering a formula.

Easy example

Beth wants to send invitations to 31 friends.
She only has 15 cards. How many more does she need?

$$31 - 15 = 16$$

	A	B	C
1	31	15	=A1-B1
