

CHRISTMAS TREE ADDING CHALLENGE 5

- Each number is the total of the two numbers below it.
- Find a solution for each of the trees below! There are many possibilities!

CHRISTMAS TREE ADDING CHALLENGE 5 ANSWERS

The formula for the total is $a + 3b + 3c + d = \text{top number}$.

E.g. $a=2$, $b=1$, $c=1$, $d=2$ will work for the first tree to give $2+3+3+2=10$
