

## CHRISTMAS TREE ADDING CHALLENGE 6

- Each number is the total of the two numbers below it.
- Find a solution for each of the trees below! There are many possibilities!

# CHRISTMAS TREE ADDING CHALLENGE 6 ANSWERS

The formula for the total is  $a + 3b + 3c + d = \text{top number}$ .

E.g.  $a=10, b=6, c=4, d=8$  will work for the first tree to give  $10+18+12+8=48$
