MATH WORK SHEET  
CHAPTER 11

Calculating International Time Zone Differences

Use the following World Time Zone map. Assume you are the accountant for your company and you must contact foreign customers about payment of their invoices. Based on the city in which you are located, what time would you have to call the following cities in order to talk to someone at 10:00 in the morning (their time)? You may need to use an atlas to locate some of the cities.

My City \_\_\_\_\_

Time in My City

- \_\_\_\_\_ London, England, 10:00 A.M.
- \_\_\_\_\_ Frankfurt, Germany, 10:00 A.M.
- \_\_\_\_\_ Taipei, Taiwan, 10:00 A.M.
- \_\_\_\_\_ Mexico City, Mexico, 10:00 A.M.
- \_\_\_\_\_ Innsbruck, Austria, 10:00 A.M.

Time in My City

- \_\_\_\_\_ Helsinki, Finland, 10:00 A.M.
- \_\_\_\_\_ Athens, Greece, 10:00 A.M.
- \_\_\_\_\_ Canberra, Australia, 10:00 A.M.
- \_\_\_\_\_ Cape Town, S. Africa, 10:00 A.M.
- \_\_\_\_\_ Tokyo, Japan, 10:00 A.M.
