Fixed vs. Variable Costs

Activity Overview:

You will conduct online research to identify business operations costs. You will then categorize these as fixed or variable costs and provide an explanation of the cost.

Directions:

1. Conduct online research to identify 10 different business operations costs.
2. Write each cost in the Expenses column in the table provided.
3. In the middle column, write "Fixed" or "Variable" to identify which category each cost represents.
4. In the right column, write an explanation of why each cost was categorized as fixed or variable.
5. Once complete, turn in your activity.

Expenses	Cost	Fixed/Variable	Explanation
